Option

Digital printer Cat.No.3118	DP-63
Input method	RS-232C
Type of printer	Thermal dot matrix printer
Printing data fields	Angle of rotation, International Sugar Scale, Specific optical ro- tation, Concentration, Purity, Length of sample tube, Measure- ment temperature, Day, Month, Year and Time
Power supply	AC adapter (Input voltage : AC100 to 240V)
Power consumption	13VA
Dimensions and weight	17×16×7cm, 580g (main unit only)

Quartz control plates

Automatic Temperature Compensation Function for International Sugar Scale Finally, a multifunctional fully automatic polarimeter at a reasonable price!

> **Automatic** Polarimeter

Automatic Polarimeter

- Angle of Rotation
- International Sugar Scale (without temperature compensation)
- International Sugar Scale (with Automatic Temperature Compensation)
- Specific Optical Rotation
- Concentration
- Purity

Features

- Easy To Use: Simply place an observation tube in the sample chamber of the AP-300 and press START key
- The minimum angle of rotation is 0.01°, the minimum International Sugar Scale is 0.01°Z
- Automatic Temperature Compensation Function for International Sugar Scale with a range between 18°C and 30°C
- Conforms with ICUMSA standards
- Built in memory stores the 30 most recent measurement readings
- Out-of-range measurements are indicated instantly by graphic display
- The AP-300 offers ease of use with a very competitive price
- Compact and space saving
- **NEW** Average Measurement Value is Displayed!
- NEW Password Function as necessary for ISO Standard!

Application

- Measures the specific optical rotation of medical agents
- Measures the concentration of optically active substances found in fragrance materials or chemical compositions
- Measures the international sugar scale and the purity of sugar
- Identifies the attributes of inverted sugar, etc.
- Measures the specific optical rotation or the concentration of optically active substances

Example of angle of rotation display

Explanation of measurements display Angle of rotation

- The angle of rotation is the basic numeric value measured by
- polarimeters, and changes depending on the concentration of the solution, the length of the observation tube, temperature, and/or the measurement wavelength. It is symbolized by " α " and indicated in "°." International Sugar Scale
- The International Sugar Scale is indicated in "°Z."
- The measurement value of 26g of sucrose in 100ml of sucrose solution in a 200mm observation tube is 100°Z. This measurement value is commonly used in the sugar manufacturing industry, and is usually temperature-compensated to the reference temperature of 20°C (68°F). The AP-300 can display the measurement value with or without temperature compensation (Automatic Temperature Compensation, "ATC").
- Specific Rotation

The Specific Rotation is a numeric value unique to each substance. By definition, the specific rotation value is equivalent to the angle of rotation obtained by a measuring a solution of 100% concentration in a 100mm observation tube (although such a measurement is actually not practical).

- Specific rotation is symbolized by " $[\alpha]$ " and indicated in "°."
- Concentration
- The Concentration is the density of a liquid solution made by dissolving an optically active substance in water or alcohol. It is indicated in g/100ml."

Purity

The Purity is the proportion of sucrose compared to the soluble solid content in a sample. It is indicated in "%." To measure the purity, input the Brix value of the sample (which can be obtained by using an ATAGO refractometer) into the AP-300 before taking a measurement.

Special Packages

ATAGO has prepared 4different AP-300 packages.

Recommended for sugar industry

Type A

Temperature Control

- Cat.No.5296
- AP-300 (including accessories)
- Jacketed flow tube with funnel and
- temperature sensor for jacket (200mm-approximate volume 15ml) Inner Lid (For Tube 200mm)
- * Circulating Constant Temperature Bath 60-C3 (Cat.No.1921) sold separately.

Type B

No Temperature Control Cat No 5297

- AP-300 (including accessories)
- Uniacketed flow tube with funnel (200mm-approximate volume 15ml) Inner Lid (For Tube 200mm)

Recommended for pharmaceutical industry
